Environmental Site Assessment and Remediation

EnviroProbe is a woman-owned small business headquartered in Nitro, West Virginia. Our experienced operators have provided direct-push, environmental and geotechnical drilling services since 1995. EnviroProbe's team of environmental professionals and scientists has performed Phase I, Phase II, and Phase III environmental site assessments (ESAs) and remediation at hundreds of sites with varying degrees of complexity.

Successful projects require a firm with an understanding of past (historical) operational issues, current environmental and regulatory challenges, and future use (residential, commercial, industrial) considerations. It requires a commitment to keeping pace with changing regulations, practices, and trends. Our professionals undergo yearly professional development and training to keep pace with changing regulations and technology. We employ a number of professionals having one or more of the following degrees, field of study, credentials, and/or certifications:

- Professional Engineer (PE)
- Environmental Professional (ASTM) – for Phase I ESAs
- Licensed Remediation Specialist (LRS) – WV Voluntary Remediation Program
- Certified Well Drillers (WV, KY, IN, OH, PA)
- Class B UST Removers (WVDEP)
- Asbestos Inspectors
- Geology/Hydrogeology
- Environmental Science
- Computer Aided Drafting and Design (CADD)
- Geographical Information System (GIS)
- Hydrogeologic Mapping and Modeling

EnviroProbe is a regional leader in the environmental science and engineering field. Our professionals are experienced and excel at understanding and guiding projects through the web of regulations such as Superfund (CERCLA), Resource Conservation and Recovery Act (RCRA), Superfund Amendments and Reauthorization Act (SARA), National Environmental Policy Act (NEPA), Asbestos Hazard Emergency Response Act (AHERA), Safe Water Act (SWA) and Safe Drinking Water Act (SDWA). Some of the typical services we provide include the following:

• Environmental Site Assessments (ESAs) and Due Diligence

- Phase I ESAs (AAI)
- Phase II ESAs
- Work Plans and QA/QC
- Site Development Planning
- Asbestos Inspections
- Lead Inspections and Risk Assessments
