Oil and Gas Services

EnviroProbe is a woman-owned small business headquartered in Nitro, West Virginia. Our experienced operators have provided direct-push, environmental and geotechnical drilling services since 1995. The owners have been involved in the oil and natural gas production and service industry since the mid-1970's. As a result, EnviroProbe provides numerous services for our clients that have oil & natural gas interests. We've managed various aspects including pre-drilling permitting and planning, engineering and location construction, well plugging, to complex groundwater contamination issues resulting from upstream and downstream operations.
