**SERVICE BRIEF**

*Permitting*

*Regulatory Compliance*

*Environmental Services*

**Permitting and Regulatory Compliance**

EnviroProbe is a woman-owned small business headquartered in Nitro, West Virginia. Our experienced operators have provided direct-push, environmental and geotechnical drilling services since 1995. Permitting a site or activity typically requires a multi-disciplinary team of professionals to weave through today's complex permit applications, regulatory negotiations, modifications, and compliance evaluations. EnviroProbe's team of engineers, environmental professionals and scientists has worked with various clients to permit a number of different sites or processes.

**Clean Water Act**

National Pollutant Discharge Elimination System (NPDES) permits are mandated for various site activities by the Federal Clean Water Act and state environmental agencies. Construction, commercial, industrial, and remediation activities may require permitting or a permit determination. Examples of the type of NPDES permits EnviroProbe personnel have assisted our clients include:

- Construction and earth moving activities
- Stormwater/sediment
- Water/wastewater treatment
- Groundwater remediation systems

**Stormwater Pollution Prevention Plans (SWPPP)**

**Groundwater Protection Plans (GPP)**

**Endangered Species and Archaeological Surveys**

**Wetland Surveys and Mitigation Planning**

**Waste Management Activities**

**NEPA Evaluations**
