Air Knife, Potholing and Hydro-Excavation

EnviroProbe is a woman-owned small business headquartered in Nitro, West Virginia. Our experienced operators have provided direct-push, environmental and geotechnical drilling services since 1995. Another recent addition to our fleet of equipment is the VacMaster 1000 trailer. It has full hydro excavation, air knife, and potholing capabilities. It is used to clear locations for underground obstructions prior to drilling, excavation around sensitive equipment, clear areas prior to excavation, and is very useful in vacuuming soil and liquids in situations such as spill response/recovery.
